

Koss SB45 headset setup for Icom 5100 or 7100

The Koss SB45 Communications headset is a good buy on Amazon, New for \$33.08 but I bought 2 returns for \$12.41 each and they were like new, no box, but otherwise perfect.

To connect to an Icom 7100 or 5100 with the modular mic jack you need:

The Heil Sound AD-1-ICM
SKU ZHL-AD-1-ICM. \$25 at Gigaparts in blue

Home brew PTT switch in yellow with 1/4 in mono phone plug.

Two 3.5mm stereo to mono adapter green
3.5mm Mono to Stereo Adapter, 2 Pack 3.5mm 1/8" Mono Male Plug to 3.5mm 1/8" TRS Stereo Female Jack for Radio, Headphone \$7.99 for 2 at Amazon.

The headset in orange

The HOOKUP:

plug the grey Headset cable into one of the 1/8 to 1/8 adapter then into the Heil Adapter.

Plug the black headset wire into the other 1/8 to 1/8 adapter and into the rig speaker jack.

Plug the PTT switch into the remaining Heil adapter jack.

Now plug the modular plug into the rig Mic jack.

Worked great for me.....Bill W4EDN
